## A19 Series High Range Temperature Control Catalog Page

## Description

The A19 Series Controls are single-stage temperature controls that incorporate liquid-filled sensing elements.
Refer to the A19 Series Hot Water Heating Controls Well Immersion Product Bulletin (LIT-125025) for important product application information.

## Features

- wide temperature ranges available
- constant differential throughout the entire range
- single-pole, single-throw (SPST) or single-pole, double-throw (SPDT) snap-acting switches
- fixed or adjustable differential available
- unaffected by barometric pressure changes
- unaffected by cross-ambient conditions
- compact enclosure
- variety of sensing element styles

## Applications

The A19s are suitable for temperature control in HVAC/R applications.
