Gas Furnaces

90%+ AFUE

GET EFFICIENCY AND SMART DESIGN.
AND GET IT NOW.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider a Ducane™ gas furnace, quality and value are a given. You're getting peace of mind with great features and a smart design—and best of all, you get it right now.

Efficiency ratings

Consider the AFUE (Annual Fuel Utilization Efficiency) ratings that measure how efficiently the fuel is used by the furnace. Higher numbers mean greater efficiency and lower gas bills for you.

Everyday savings

The blower in a gas furnace operates all year long to circulate hot air or cold air throughout your home. Compared to a fixed-speed (PSC) blower motor, a constant-torque or variable-speed blower motor will provide everyday savings on your electric bill.

Is it time to replace your gas furnace?

It can be hard to decide whether to repair or replace. Here are a few things to keep in mind when you're deciding:

- **Age of the furnace –** With the average life span of furnaces being 10-12 years, it's worth considering investing in a new one, as repairs may not be worth the investment.
- **Updates –** New technology is making furnaces more efficient and easier to use and control. Rigorous run testing of each furnace in our factory helps ensure reliable performance in your home.
- **Repair costs –** Once repair costs exceed 50% of the cost of a new gas furnace, a new purchase might be in order. This is especially true if you'll be staying in your house several more years.

WHATEVER YOUR NEEDS, A DUCANE™ FURNACE IS THE RIGHT CHOICE, RIGHT NOW.

96% AFUE

96G2V

ENERGY STAR

Perfectly controlled heat and humidity

- Variable-speed motor keeps temperature and humidity levels perfectly controlled
- Two-stage operation adjusts heat output to optimize comfort and efficiency
- Gradual motor acceleration and deceleration for quieter operation

96% AFUE

96G1E

ENERGY STAR

Energy-efficient and reliable comfort

- Constant torque motor maintains consistent airflow and even temperatures
- Uses up to 1/3 less energy than a fixed-speed blower
- 96% AFUE efficiency rating means 96% of fuel is turned into usable heat

95% AFUE

95G1E

ENERGY STAR

Efficient heating performance

- Constant torque motor produces consistent airflow and even temperatures
- Uses up to 1/3 less energy than a fixed-speed blower

95% AFUE

95G1

Dependable comfort and quiet operation

- Unique one-piece burner design with low input capacities greatly reduces combustion noise
- 19% more fuel-efficient than a standard 80% AFUE furnace

92% AFUE

92G1E

Efficient heating performance

- Constant-torque motor produces consistent airflow and even temperatures
- Up to 1/3 less energy than a conventional blower

92% AFUE

92G1

Consistent temperatures all winter long

- Powerful fixed-speed motor delivers dependable comfort during heating and cooling performance
- 15% more fuel-efficient than a standard 80% AFUE furnace

PEACE OF MIND

All gas furnaces are factory run-tested to ensure reliable performance in your home. They come with a 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger.*

10 YEAR LIMITED WARRANTY
WITH PRODUCT REGISTRATION

LIFETIME LIMITED WARRANTY
HEAT EXCHANGER

Applies to residential applications only. Subject to state regulations.

MAKE A FURNACE DECISION YOU WON'T REGRET.

When you think about everything Ducane delivers, your decision is easy. With Ducane, all your heating and cooling questions are answered. The performance and reliability you want are right here in a gas furnace that is ready to work for you.

Ducane. It's the right choice. Right now.
