

PRODUCT OVERVIEW

- Premium Overspray Arrestor
Unique design holds up to 5 times more overspray
- Arrests Virtually All Overspray
Excels at capturing particulate 2-5 micron in size, up to 10 micron in size
- Stable Airflow
High capture rate before airflow restriction
- Longer Service Life
Reduces filter changes thus lower disposal costs

PAINT POCKET

WHY A PAINT POCKET?

- Excels in arresting both liquid and powder coating overspray generated in industrial, automotive and aerospace applications.
- Feature a unique design that holds up to five times more paint than conventional overspray arrestors, cutting filter changes by up to 80%.
- The three -dimensional "pockets" embedded in the front face of the filter more than double the surface area allowing the arrestor to capture and hold large quantities of overspray.
- Paint pocket overspray arrestors feature some of the best technology currently available for single state arrestors in production spray booths.
