

SAMSUNG

360 CASSETTE

Well rounded.

A truly circular cassette.

Enjoy even airflow from a beautifully sleek design that fits into any setting.

Product Registration Required
Conditions Apply

A round of applause.

This truly innovative system provides surround airflow evenly throughout the space. Available in black and white, you can choose a circle or square fascia panel.

Bladeless beauty.

Standard ceiling cassettes use blades on 4 sides of the unit to distribute air. This 4-sided distribution creates uneven room temperature, resulting in “cold” or “hot” spots. With bladeless technology and the use of 3 booster fans, the 360 Cassette provides even, horizontal airflow with the option to direct the air at various angles.

Cool from every angle.

The 360 Cassette is available in a wide range of heating and cooling capacities to fit commercial and light commercial applications. Its innovative circular design can match a multitude of interior designs, so it perfectly fits in everywhere.

- Available as a 1-1 CAC system and models are also available for DVM S systems
- More efficient than conventional (non-inverter) systems
- Quiet Operation; 29dB of sound on the low speed setting. Applies to the 18k and 24k models.
- IF Design Award 2016 Winner (<http://ifworlddesignguide.com/>)

Wi-Fi Adapter

Samsung's Wi-Fi Adapter allows for remote control of Samsung DVM S indoor units and CAC single zone systems from a mobile device when using the Samsung Smart Home App*.

App Features:

- Daily, weekly and monthly energy consumption monitoring**
- Basic control and monitoring of power, mode, set temperature, room temperature, fan speed, and supply air louver position
- 7-day scheduling for single or multiple units

WI-FI ADAPTER (MIM-H03UN)

Maximum Wi-Fi Adapter Quantity Per System	
CAC Single Zone Systems	1
DVM S Systems	4

One MIM-H03UN Wi-Fi Adapter can control up to 16 indoor units on a single DVM S system, or connect a maximum of 4 adapters for control of up to 64 indoor units on the same system. Group configuration allows for simple control of multiple units connected to the same Wi-Fi Adapter.

Individual Control

There are many different ways to control a Samsung system. For applications where a wireless controller is not acceptable (i.e. public facilities), three wired controllers, Simple, Touchscreen, and Premium are available to purchase as an option. Based on desired level of control and user interface preference, Samsung offers a variety of wired controllers suitable for any application.

WIRELESS REMOTE CONTROLLER
AR-KH00U

SIMPLIFIED WIRED CONTROLLER
MWR-SH00N

TOUCHSCREEN CONTROLLER
MWR-SH10N

PREMIUM WIRED CONTROLLER
MWR-WE11N

Central Controls

Samsung's Data Management Server (DMS) lets you monitor and control your on-site air conditioning needs remotely. It's the easiest and most convenient way to manage a large number of air conditioning units at once.

DMS 2.5:

- 24-hour standalone web-server
- No special software required
- All management functions integrated
- Heat pump auto changeover logic
- **DMS 2.5 + BACnet and LonWorks available**
- BACnet and LonWorks gateways will wire and setup the same as DMS 2.5

DMS 2.5
MIM-D01AUN

Please refer to www.dvmdownload.com for all control options, features, and specification.

*Samsung's Smart Home App is available for download on iTunes and Google Play.

**Energy consumption data is used for general reference only and should not be used for billing purposes. Data provided will not necessarily match your utility bill.
